

# Servicing made simple

## Inflation-proof fixed prices

Spread the cost  
with a **Service Plan**  
from TMS Motor Group.

# Keep it simple

## Easy budgeting with TMS Motor Group

Regular servicing keeps your vehicle reliable, safe, roadworthy and running efficiently and economically.

And it's not just when you're driving that you'll see the benefits. You'll notice the difference when you come to sell your vehicle too. That's because a full service history can add to your vehicle's resale value.

A TMS Service Plan not only makes sure your vehicle is expertly cared for, it also helps you budget.

Choose from a low monthly interest-free payment, or one affordable upfront payment. Then that's all you pay for the length of the plan - even if parts or labour costs rise. And you'll always get a service carried out by trained technicians using genuine parts and recommended oil.

There's no contract, so you can cancel at any time. But there are extra benefits; like a free vehicle health check, puncture repairs and much more.

**It's servicing made simple  
and made simply better.**

Choose a  
Service Plan  
from TMS and  
keep your vehicle  
running efficiently  
and economically.

# Features and benefits

- **FREE PUNCTURE REPAIRS**

We will repair your damaged tyres free of charge (where legally possible).

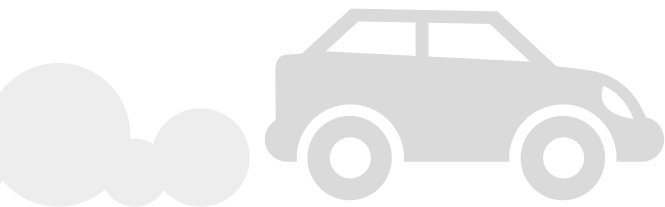

- **FREE HEALTH CHECK**

Free health check for your vehicle.

---

## WHY CHOOSE A TMS SERVICE PLAN?

- **It's a plan fixing the cost of services at today's prices for the duration of the plan.**
- **It's transferable to your next car.**
- **It can be cancelled at any time, so there is no contract at all to consider.**
- **It's just a great way to spread the cost and enjoy servicing peace of mind.**

## HOW YOUR TMS SERVICE PLAN WORKS?

It is really simple.

Your monthly Direct Debit covers the cost of all routine maintenance work – and any additional benefits included – for the service intervals shown on your documentation.

By maintaining your payments, you will have enough money in your account ready to pay for the work required when your service and/or MOT's due.

The possible exception to this, is if you cover a greater mileage than originally estimated when your plan was created, which would mean your service was due ahead of your payment schedule.

Whilst this means that you would need to 'top-up' your payment, you could also arrange to reschedule your Direct Debit to accommodate your higher mileage.

The good news is; by opting for a TMS Service Plan, you will have paid for the work required before your vehicle visits the service department. Your TMS Service Plan can be tailored to suit all your vehicle servicing needs.

What's more your TMS Service Plan is inflation-proof; if the price of parts and/or labour increases during the term of the plan, no problem - you won't pay more.

Depending on the TMS Service Plan you purchased and your own individual needs, you may have opted for additional benefits. This can include regular MOT's, health checks and fluid changes. Check your TMS documentation pack for more details.

# “Wouldn't it be great if you could budget for your car servicing monthly, fixing the cost at today's prices for up to 5 years...”

## **...well now you can.**

A fixed monthly cost makes budgeting for your service both convenient and cost effective.

## **Is the monthly price fixed?**

Yes. All future costs are calculated at today's prices meaning your future car servicing will be free of inflation for the period of the plan.

## **How does this help me budget?**

Making small regular monthly payments makes budgeting for your service easier.

## **What happens when servicing prices go up?**

Prices normally go up with inflation, but as your future service prices have been agreed in advance, any increases in prices would not be passed on.

## **What if I change my car?**

Any money in the service plan fund, minus the cost of any work carried out, can be transferred to any car.

## **What if I want to cancel?**

The service plan can be cancelled at any time and a refund given, minus the cost of any work carried out.

## **How will this affect my service history?**

The plan is for all servicing in accordance to manufacturers schedules\*. Having a dealer service history helps maintain the value of your car, plus:

- The benefits of dealing with a Franchise Dealer
- Factory trained technicians
- Potential goodwill and contribution
- All work guaranteed for 1 year – parts and labour

A TMS Service Plan can be cancelled or transferred at any time with no cancellation fee. Payments and refunds will be calculated accordingly. Service intervals for your vehicle can be found in your vehicles service book. TMS Service Plans and associated additional discounts/benefits cannot be used in conjunction with any manufacturers and/or TMS promotion. A TMS Service Plan covers the complete cost of standard vehicle servicing, including parts and labour. \*Volvo and Kia only. TMS Service Plans are available for all types of car and car-derived vans, although we reserve the right to withdraw/amend the terms of a Service Plan where your vehicle is not based on a manufacturers standard specification.
